Each Air Medical Crewmember training program consists of customer-selected subjects from the list below. Each course is a comprehensive learning program covering the listed topics. Subjects include a mixture of interactive tutorials and text-based lessons, culminating in an exam. Each course also includes administrator access to online record keeping in order to track and monitor individual student progress. Guidance for the selection of these subjects is provided in 14 CFR Part 135.621.

**ACCREDITED AIR MEDICAL CREWMEMBER TRAINING SYLLABUS**
