INDIVIDUAL COURSES TRAINING SERIES

Air Medical Resource Management

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 2 HRS

AMRM present air medical personnel with the basic theory of resource management in a medical transport environment. It provides medical personnel and crewmembers with the tools for addressing safety concerns during flight, emphasizes pilot and medical personnel teamwork, and has the overall goal of improving individual and group behaviors to establish and maintain a culture of safety.

Our AMRM course provides a working foundation for resource management that is essential for air medical operations, including HEMS and fixed wing medical transport.

Air Medical Resource Management (AMRM): This continuing education activity is approved by the Commission on Accreditation of Pre-Hospital Continuing Education. CAPCE#: 20-CTCS-F3-0302 CEH Number and Type: 2.0 CEH Operations.
