INDIVIDUAL COURSES TRAINING SERIES

Brownout, Whiteout and Flat Light Conditions

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 1.25 HRS

The course Brownout, Whiteout, and Flat Light Conditions provides pilots with essential knowledge of these dangerous meteorological conditions. This course focuses on identifying brownout, whiteout, and flat light conditions and covers methods to prepare pilots to avoid and exit these conditions safely.

Fulfills pilot training requirements for Part 135, Part 125, and Part 91 pilots and gives pilots the foundational knowledge to help mitigate and combat brownout, whiteout, and flat light IMC conditions.
