Jeppesen Charts Overview

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 1.5 HRS

Our Jeppesen Charts course uses charts and example scenarios to train pilots on how to read Jeppesen Charts to ensure location and altitude accuracy when flying and communicating with ATC and other aircraft.

For Part 135, Part 125, and Part 91 pilot training, our Jeppesen Charts course provides a foundational knowledge for flight crews to effectively ensure proper chart use.

TUTORIALS
