INDIVIDUAL COURSES TRAINING SERIES

# Personal Protective Equipment

**FIXED/ROTOR WING**

**IPAD COMPATIBLE**

**APPROX 1.5 HRS**

Our Personal Protective Equipment (PPE) course provides an introduction to Personal Protective Equipment, starting with when you should use PPE and what type of PPE might be best for different tasks. It also covers essential safety topics such as ensuring your PPE fits appropriately, what limitations each PPE has, and how to care and store it properly.

This Personal Protective Equipment course is designed to meet OSHA requirements for PPE training and provide a practical overview of their proper selection and use.
