INDIVIDUAL COURSES TRAINING SERIES
Physiology and First Aid

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 1.0 HRS

We offer Physiology and First Aid courses tailored to Fixed Wing or Rotor Wing flight crews that fulfill the requirements for training over altitude related illness and how to respond to illness, injury, or abnormal situations involving passengers or crew during flight.

For Part 135, Part 125, and Part 91 pilot training, our Physiology and First Aid course provides the training your crew needs to ensure they can respond to physiological emergencies during flight.
