INDIVIDUAL COURSES TRAINING SERIES
Wire Strike Prevention

ROTOR WING

IPAD COMPATIBLE

APPROX 1 HR

Wire Strike Prevention ensures pilots and crewmembers can avoid and mitigate incidents that may occur in wire environments. This course provides a foundational knowledge to effectively ensure pilots recognize, understand, and identify methods to mitigate wire strike hazards.

For Part 135, Part 125, and Part 91 pilot training, our Wire Strike Prevention course helps ensure pilot and crewmembers make the best decisions when operating in a wires environment.

TUTORIALS

Wire Strike Prevention

1. Wire Strike Prevention Overview
2. Utility Infrastructure and Charting
3. Wire Detection and Strike Prevention

LESSONS

▶ Comprehensive examination covers subject matter from all lessons
