# Aviation Safety Action Program

**FIXED/ROTOR WING**

**IPAD COMPATIBLE**

**APPROX 0.7 HRS**

The Aviation Safety Action Program (ASAP) Overview course provides users with an overview of the ASAP, including protections offered to eligible employees and the process reports undergo after being submitted.

This course provides an overview of the purpose of an ASAP and each member's role within the program. It also includes instruction on the appropriate expectations regarding voluntary submission, reporting protection, and potential corrective actions.

For Part 135, Part 125, and Part 91 operators, our Aviation Safety Action Program (ASAP) Overview course ensures eligible employees understand the ASAP reporting and review process.
