INDIVIDUAL COURSES TRAINING SERIES
Flammable Liquids

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 1.0 HRS

Our course focuses on ensuring employees are able to identify flammable liquids in their workplace through the use of labels, markings, and signage, understand how to handle and store flammable liquids safely, and implement basic emergency procedures in the event of a spill or other emergency involving flammable liquids.

This course is intended to fulfill the OSHA regulations in 1910.106 training requirement for handling flammable liquids.
