INDIVIDUAL COURSES TRAINING SERIES
Walking-Working Surfaces

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 1.3 HRS

CTS's Walking-Working Surfaces course provides employees with the information needed to prevent slips, trips, and falls while performing their work functions. It includes training on ladder safety, mobile ladder stands and platforms, and dockboards.

For Part 135, Part 125, and Part 91 maintenance personnel training, our Walking Working Surfaces course provides a foundation for learning about how to avoid occupational injury due to workplace hazards. It is intended to fulfill the OSHA training requirements on fall hazards.
