INDIVIDUAL COURSES TRAINING SERIES

TSA Passenger and Accessible Property Screener

FIXED/ROTOR WING   **IPAD COMPATIBLE**   **APPROX 1 HR**

Our TSA Passenger and Accessible Property Screener course provides training for Part 380 Charter operators who are responsible for screening passengers and their property prior to boarding a flight. This course covers essential topics, including screening requirements for domestic and international flights, screening area requirements, and procedures for individual and property screening utilizing walk-through metal detectors (WTMD), hand-held metal detectors (HHMD), explosive trace detection (ETD) devices, and physical searches of individuals and property.

The course also provides procedures for how to handle passengers who refuse screening and the discovery of prohibited items.

This course meets the requirements of Part 380 Charter screener training as specified in the TFSSP and 49 CFR 1544.
