INDIVIDUAL COURSES TRAINING SERIES

Runway Incursion and Excursion

FIXED/ROTOR WING

IPAD COMPATIBLE

APPROX 2.6 HRS

Runway Incursion and Excursion instructs pilots on how to use situational awareness and proper preparation and planning to ensure safe airport operations. In this course, you'll become familiar with the airport environment and strategies for reducing and mitigating runway incursions and excursion.

For Part 135, Part 125, and Part 91 pilot training, Runway Incursion and Excursion fulfills the FAA training recommendations for the prevention of runway incursions and the recommendations of the Flight Safety Foundation Runway Safety Initiative for the prevention and mitigation of runway excursions.

TUTORIALS

Runway Incursions

1. Runway Incursions
2. Communication with ATC
3. Flight Planning
4. Ground Operations
